# STATEMENT OF WORK No. 3

**Predictive Fall-Risk and Staffing Analytics**

**SOW Reference:** ATQ-ASH-SOW-03

**Under:** Professional Services Agreement between Ashwood Senior Living, Inc. and AtliQ Inc dated August 25, 2025 (the "**Agreement**"), and the Business Associate Agreement of the same date (the "**BAA**")

## 1. Parties

This SOW is entered into on _____ 2026 between **Ashwood Senior Living, Inc.**, 1600 West End Avenue, Suite 1100, Nashville, Tennessee 37203 ("**Ashwood**") and **AtliQ Inc**, 101 College Road East, Suite 210, Princeton, New Jersey 08540 ("**AtliQ**").

## 2. Background

Under SOW-1 and SOW-2 AtliQ built Ashwood's resident-care data warehouse (electronic health record, medication administration and incident data) and operational dashboards. Ashwood now wishes to predict resident fall risk and align night-shift staffing to predicted risk.

## 3. Scope

3.1 Fall-risk model using resident age, diagnoses, medication classes, prior incidents and mobility assessments.

3.2 Night-shift staffing recommendations per community.

3.3 Integration of risk scores into Ashwood's nurse-station dashboards.

## 4. Milestones and Fees

| Milestone | Deliverable | Target | Fee (USD) |
|---|---|---|---|
| M1 | Feature design and data preparation | Start + 4 weeks | 13,400 |
| M2 | Fall-risk model and validation | Start + 10 weeks | 26,800 |
| M3 | Staffing recommendations; dashboard integration | Start + 14 weeks | 16,750 |
| M4 | Go-live and monitoring | Start + 16 weeks | 10,050 |
| | **Total** | | **67,000** |

Invoices payable within thirty (30) days.

## 5. Acceptance

Ashwood shall review each Deliverable within ten (10) business days.

**6. Staffing and Delivery Model** ***(added by Ashwood — J. Coleman, 22 Sep 2026)***

6.1 To meet Ashwood's target of go-live before 31 January 2027, AtliQ will supplement its U.S. team with **four (4) data scientists from AtliQ's Pune, India analytics team** (AtliQ Technologies Pvt Ltd).

6.2 The Pune team will work on a **Limited Data Set** (dates of admission and incidents, five-digit ZIP code, age, diagnosis and medication class codes; direct identifiers removed), accessed through Ashwood's Citrix virtual desktop. No data will be downloaded to AtliQ systems.

6.3 Ashwood's Operations team confirms this approach is acceptable. A data use agreement for the Limited Data Set will be provided by Ashwood if required.

**7. Governing Terms**

7.1 This SOW is governed by the Agreement and the BAA. In case of conflict, the BAA prevails.
